SUBJECT: HRPP Advisory Committee

POLICY

The institution shall maintain a Human Research Protection Program Advisory Committee (HRPP AC). The HRPP AC shall provide input on IRB policies and procedures to promote efficient IRB operation while ensuring compliance with the standards of human subject protections as set forth in the Belmont Report and federal, state and institutional regulation and policy. The committee will also provide input regarding other aspects of the UAMS human research protection program. The HRPP AC will include representatives from research administration and faculty/staff from campus departments that regularly submit research to the IRB. The committee will also act as a conduit between the Human Research Protection Program and the research community to relay comments or concerns between the two groups.

Nothing in this policy shall prevent other individuals or groups from meeting to discuss IRB- or HRPP-related issues as needed.
