SUBJECT: To the Administration

Members of the University of Arkansas for Medical Sciences (UAMS) IRB are appointed by the Vice Chancellor for Research. The membership broadly represents the colleges and academic units of the campus; and includes lay members from the community and other affiliated and non-affiliated institutions.

Human Subject Research that has been approved by the IRB may require additional institutional review and approval by the Vice Chancellor for Research and/or other oversight committees. No individual or committee may allow a Human Subject Research study to proceed if the IRB previously reviewed the study and voted not to grant approval.
